Adrian Capraru

Head of AI & Automation | Production AI for Finance, Accounting and Operations

Bucharest, Romania (EET, UTC+2) | EU citizen | Remote EU, B2B contract or employment
adriancapraru27@gmail.com | linkedin.com/in/adriancapraru27 | github.com/cadi27tech

EXECUTIVE SUMMARY

Takes finance AI from first commit to production and runs it. Six years in regulated FinTech, the last three as COO through an EU licence audit; two years of production AI. Built a 200+ printer factory. Clients and customers in 32+ countries on four continents.

CORE COMPETENCIES

AI Strategy & Roadmap | Production AI Agents | Agentic Workflows | Document AI | Evals & Regression Testing | Human-in-the-Loop Design | AI Governance, GDPR & EU Data Residency | Regulatory Compliance (ECSP, AML/KYC) | Finance Operations Automation | Systems Integration (APIs, Webhooks) | Team Training & AI Adoption | Operations Leadership

SELECTED ACHIEVEMENTS

- Built an Irish accountancy firm's AI & Automation service line from zero: a 20-module client platform live 10 days after first commit, a trained team (10+ people) and automation delivery for the firm's own clients.
- Shipped AI that holds up in a regulated practice: 99.8% field accuracy on a synthetic test corpus for under one cent per document, EU-only processing enforced in code and an AML due-diligence gate.
- As COO, lead on the ASF authorisation and audit that secured an EU crowdfunding (ECSP) licence in March 2024; automated KYC and AML onboarding from about 45 to 8 minutes per investor.
- Grew 3Descu from 5 printers in an apartment to a 200+ printer factory selling into 26 of the 27 EU member states: turnover x65 in three years at a 57% net margin, every line of software written by him.

PROFESSIONAL EXPERIENCE

Portfolio career since 2022: fractional AI lead, studio co-founder, founder and consultant in parallel; COO until Oct 2025.

Director of AI & Business Automation (Contract), M.A. Whately & Co. Oct 2025 - Present

Irish chartered accountancy and audit firm with no AI offer; built its AI & Automation service line from zero and runs it. Sole owner of AI, reporting to the principal: scoping, pricing, build, training and support, with parallel AI coding agents behind test gates.

- Took the flagship M.A. Whately Suite from first commit to live production in 10 days (23 Sep to 3 Oct 2026), then to 20 modules in four weeks: AI bills reader, Xero posting, VIES VAT checks, SEPA payment files, credit control, an Irish statutory rules engine (Revenue deadlines, CRO audit-exemption tests) and a confirm-first AI assistant.
- AI bills reader at 99.8% field accuracy on a synthetic test corpus, browser path lifted from 86.7% to 97.6%, zero silent errors, under one cent per document; posts to Xero with VIES checks and SEPA pain.001 payment files.
- Safe by design for a regulated profession: EU-only AI processing enforced in code, an AML due-diligence gate before any client account opens, audited IBAN confirmation, tenant isolation, 3,000+ regression checks and an 87-point smoke test on every deploy.
- Rebuilt practice management for 587 clients and 10 staff (3,172 writes, zero failures); a Xero audit of 749 invoices surfaced 391 clients with no billing in 12 months; a dry run caught a mass error, cutting 587 payroll tasks to exactly 38, one per payroll client.
- Trained the full team (10+ people) in an AI for Accountants session with live demos, then drove adoption through per-person dashboards, a daily staff brief and the AI Academy (8 lessons, 48 prompts).
- Client delivery: Xero prepayment journals for a tour operator, 107 of 107 matched to the bookkeeper before go-live, daily since 16 Oct 2026; a SEPA payment-file converter sold as a monthly subscription; a co-op's first automated settlement cycle.

Co-Founder & Automation Architect, Systemartis 2023 - Present

Four-person AI systems studio that takes mid-market companies past the pilot and into production. Leads the automation practice, from process discovery to the agents and code in production; bullets are studio results.

- The studio's own operational brain: a fleet of agents (qualifier, router, summariser, scheduler) with retries, human checkpoints and a full audit log; 70% of founder decisions handled or pre-routed, 20+ hours a week reclaimed, 99.9% availability over six months.
- Pricing intelligence for a multi-country marketplace seller (Innovium, the founder's own brand, related party): competitor monitoring, auditable rules-based repricing and dashboards; sales up 40% in the year after launch, nine spreadsheets retired.

Founder, 3Descu (TREIDESCUPRINT SRL) Jun 2022 - Present

From a Master's business plan to a 200+ printer factory selling into 26 of the 27 EU member states. ISO 9001:2015 certified company, team of 4 incl. contractors, no outside equity; runs strategy, P&L, pricing, production and sales.

- Won an EU start-up grant (business plan ranked first) and grew from 5 printers in an apartment to 200+: turnover x65 in three years, about EUR 190K in 2025, +75% year on year, 57% net margin (public filings).
- 2,000+ orders from 1,600+ buyers in 30 countries (45% to Germany, 1 in 3 from returning customers); rated 4.7/5 by 200+ verified buyers; approved production partner of one of the largest on-demand manufacturing platforms in the EU.
- Hired and trained the team on site and remotely, and wrote the SOPs and the ISO 9001 audit documentation; hands-on across FDM and SLA production, 3D modelling and design for manufacturing.

- Built the quote-to-fulfilment platform solo with AI coding agents in under five months: ~400 merged pull requests, 120+ release checkers (~260K assertions); its quote engine is one of the first manufacturing MCP servers in the official MCP Registry.

Independent AI Automation Consultant (Top Rated on Upwork), Upwork and direct clients — Dec 2025 - Present

Top Rated, 100% Job Success, 12/12 rated contracts five-star: 22 contracts for clients in Europe, the US and Australia, $13K+ in 12 months, almost all inbound or repeat; one client rehired 4 times.

- Runs deal-to-invoice-to-payment for a multi-entity software reseller (direct engagement): HubSpot to Xero across 3 legal entities (US, UK, EU) and 4 currencies, live since Apr 2026, 212+ invoices under HMAC-signed approvals and idempotency.
- Netherlands, education sector: EU-sovereign financial reporting platform with no US-owned service in the stack (self-hosted Supabase and n8n, Entra ID SSO, Exact Online), human approval before any ledger write, tenant isolation proven by 52/52 sign-in and 5/5 RLS mutation tests; every phase at or under budget, follow-on won at a fixed price.
- Spain and Romania, hospitality: daily revenue reporting for five hotels (6 reports a day) matched to the accountants' figures cell by cell, surfacing 2 accounting errors; guest e-invoicing extended to Romania's e-Factura.
- Denmark, industrial automation: self-improving LLM pipeline that migrates safety-critical PLC code (translator, adversarial validator and improver roles), regression-locked on a 300-case dataset with an audit trail; five stars plus a bonus.

Founder, Innovium (own consumer-products brand) — Oct 2023 - Present

Profitable by year two: EU trademark (9 classes), 66+ products on eMAG, about EUR 50K revenue in 2025.

Chief Operations Officer, HighCrowd — Oct 2022 - Oct 2025

EU-regulated real-estate crowdfunding platform. Joined with a product and no licence; left a licensed operator, after leading the authorisation with the ASF, Romania's financial regulator.

- Lead on the ASF authorisation and audit behind the EU crowdfunding (ECSP) licence granted in March 2024, Romania's 4th and the 2nd for real estate: penetration testing, architecture review and the policy set the regulator examines (risk, complaints, conflicts of interest, business continuity, outsourcing).
- Automated KYC and AML onboarding on LemonWay (identity checks, bank linking, segregated fund flows), cutting onboarding from about 45 to 8 minutes per investor (internal measure).
- Led and mentored a cross-functional, distributed team through the investor-protection flows ECSP requires (knowledge test, loss simulation, key information sheets, reflection period); seven-figure investor funding placed through the platform during tenure.

Head of Community, InRento — Oct 2021 - Jun 2024

Licensed buy-to-let crowdfunding platform; the company was named Investment Tech of the Year 2022 (Europe FinTech Awards).

- Ran investor communications for 12,000+ people through the 2022 EvoEstate-InRento merger, with account migration kept separate from feature changes; produced the platform explainer video (14K+ views).

Community Manager to Product Manager, EvoEstate — Mar 2020 - Oct 2021

Pan-European real-estate crowdfunding aggregator serving 6,700 investors with EUR 4M+ invested.

- Promoted to Product Manager within 8 months; owned the roadmap and the secondary market, ran release cycles with engineering, wrote the SOPs for critical processes and produced the explainer video (25K+ views).

TECHNICAL SKILLS

- **AI:** Claude, Gemini (Vertex AI EU), GPT-4o, MCP servers, tool-calling agents, document AI, eval harnesses, Claude Code
- **Automation:** n8n (self-hosted), GitHub Actions, webhooks (HMAC), Make, Zapier
- **Finance systems:** Xero, HubSpot, Exact Online, Sage, Dext, Stripe, LemonWay, SEPA pain.001, VIES, e-Factura
- **Engineering:** TypeScript, React, Next.js, Python, SQL, Supabase / Postgres (RLS), Vercel, Docker, Playwright

EDUCATION

Master's, Entrepreneurship & Business Administration, "Constantin Brancusi" University, Targu-Jiu | 2020 - 2022

BBA, Marketing (English programme), Bucharest University of Economic Studies | 2017 - 2020

CERTIFICATIONS

IBM AI Product Manager - IBM, via Coursera (Oct 2025); Fintech: Foundations & Applications of Financial Technology - The Wharton School, via Coursera (Sep 2025); Agile Approaches for Modern Leadership - Duke University, via Coursera (Oct 2025); AWS Cloud Solutions Architect - Amazon Web Services, via Coursera (Oct 2025)

PRESS & RECOGNITION

Featured Oct 2026 in Profit.ro, Observator News, 3D Printing Industry, 3Druck.com and Romania Journal (10 articles in a week, zero ad spend). 3Descu ranked 1st in Gorj county in 3 ListaFirme Topul Firmelor 2026 categories. Co-author of a 17-lesson crowdfunding course and a 70+ page P2P guide; 3x Banii Vorbesc podcast guest.
